

Nursery

Snow Day Learning

Today we would like all of our nursery children to enjoy making special memories in the snow! Hands-on exploration of the snow will support their understanding of the world. Talk to your child about what they can see, hear and feel while exploring. What do they notice about the snow? Get creative making patterns and snow statues. Work on motor skills by going sledging, shovelling/digging or making snow balls.

Inside, encourage children to get cosy with a book to share. They may enjoy making their own reading den! Ask your child what they know about winter and talk about the weather. Spend time together playing games.

We would love to see your snow day experiences on evidence me!
